

Ying Fu Wa Link Gameplay

This multi-denomination link offers two linked progressive jackpots and two scalable bonuses, providing venues with flexibility and players with added entertainment. Each of the base games offers its own unique free games feature – “Greeting Wealth” has no royals during free game play and the chance to trigger the Grand Jackpot, while “Incoming Treasure” has player selectable volatility and multipliers up to 10x during the free games feature.

Delivering innovative game play options, Ying Fu Wa offers players entertainment and choice with the opportunity to choose to play free game or “Fu Wa Bonus” feature. During both base game and free game play, players have the chance to win extra credits when hitting the Cash-On-Reel scalable prizes – boosting excitement and entertainment to the next level.

- In the base game, landing six or more coins initiate the Fu Wa or Fortune feature bonuses and landing eleven or more coins awards both feature bonuses.
- The Fu Wa Bonus is a hold and spin feature where yellow coin symbols and green coin symbols add values to red coins. If fifteen red coins are collected, the grand progressive jackpot is awarded.
- During the Fortune Bonus, the player is awarded eight free games, and three coins awards three extra free games. When a yellow or green coin is landed, the grand jackpot can be triggered.

Ying Fu Wa is an 88-credit cost-to-cover game available on IGT’s ergonomically designed CrystalDual™27 and PeakSlant32™ cabinets with ultra-high-definition screens for an immersive player experience.
